

To assemble:

1. Print this card double sided,
2. Cut on dotted line,
3. Fold

The card features a purple header at the top with the RDS logo and 'CANADA Support' text. The main body is white with a dotted border. It contains text about Lewy body dementia (LBD), including a definition and a website link. The right side of the card is decorated with a pattern of blue and purple dots.

I have
LEWY BODY DEMENTIA
(LBD)
This may affect my thinking, my
movements and my visual processing.
I would appreciate your help.
Please read this card for more information
on how to help. Thank you.

Lewy body dementia (**LBD**) is a progressive
condition that can affect thinking and memory,
causes visual hallucinations, sleep disturbances
and movement changes similar to
Parkinson's disease.
