Please read this card for more information
on how to help. Thank you.
I would appreciate your help.
This affects my vision and thinking.
**POSTERIOR CORTICAL ATROPHY
(PCA)**
I have

Posterior cortical atrophy (**PCA**) is a
progressive condition which affects the back of
the brain. It is commonly caused by
Alzheimer's disease. PCA leads to problems
seeing what and where things are and can
also affect memory and thinking.
