

To assemble:

1. Print this card single sided,
2. Cut on dotted line.,
3. Fold in half vertically,
4. Fold in half horizontally

<p>Posterior cortical atrophy (<b>PCA</b>) is a progressive condition which affects the back of the brain. It is commonly caused by Alzheimer's disease. PCA leads to problems seeing what and where things are and can also affect memory and thinking.</p> <p>For more information please visit:  <a href="http://raredementiasupport.ca">raredementiasupport.ca</a></p>	
<p><b>POSTERIOR CORTICAL ATROPHY (PCA)</b>          have I</p> <p>This affects my vision and thinking.          I would appreciate your help.</p> <p>Please read this card for more information on how to help. Thank you.</p>
