

Future Mapping – RDS Canada (2023–2024)

We are evaluating RDS Canada to inform the next stages of development. As part of this project, we are collecting information from our RDS Canada members and our advisory circle on their experiences via virtual interviews and feedback surveys. We are also reviewing our data base to understand the overall support contacts in relation to the types of support accessed (e.g., 1:1, diagnosis specific groups, peer conversations) and our website in terms of 'traffic' (e.g., areas of the website most frequently visited, referrals from other websites). This project will be completed in early fall 2024.

The research team includes:

- Dr Mary Pat Sullivan and Dr Veronika Williams, Nipissing University (CA)

Funder: OBI – Ontario Brain Institute
